
Coronavirus Precautionary Measures

Guest and domestic caregiver restriction to continue until April 30

As part of our strategy to keep the ACC a safe haven for Members, their children and our staff, the ban on guests and domestic caregivers will continue until the end of the day on Thursday April 30. Watch the e-newsletter on April 30 for the announcement about whether these restrictions will continue into May. We thank everyone for their understanding and cooperation during this time.

Social distancing protocols

The Club responded quickly to the government's guidelines on social distancing. Since then, we have had the time to review the measures that were rushed into place and to plan a more comprehensive approach to the Club's spa-type facilities. These have been reopened, with the following social distancing restrictions based on the dimensions of each and the government's guidelines for indoor and outdoor spaces.

- Saunas – 2 people at a time
- Steam Rooms – 2 people at a time
- Outdoor Jacuzzi – 3 people at a time
- Indoor Jacuzzi Cold Plunge – 1 person at a time
- Indoor Jacuzzi Warm Plunge – 2 people at a time

Signs reminding Members of these capacities are prominently posted and we ask everyone's cooperation with these social distancing restrictions.

How the Club's Housekeeping Staff is responding to the coronavirus disease

We all tend to take for granted that within the Club, the mundane items and public spaces are kept 'spic and span.' But now, with the coronavirus outbreak, and in response to the Taiwan Government's latest safety advice the Club's staff has refreshed its "cleaning and sanitizing" protocols.

In summary;

- Housekeeping Staff are using alcohol to regularly sterilize door handles, railings and other high traffic surfaces at least once per hour daily.
- Fitness staff will regularly sanitize handles on fitness equipment while class instructors are ensuring all mats, etc. are sanitized after each class.

- Toys and surfaces in the playroom are being sanitized twice daily.
- The services staff and kitchen staff in restaurants are using alcohol to regularly sanitize the dining tables/chairs/bench seats.

From Management and Members; we thank the Club's cleaning and service staff who are on ACC's frontlines - scrubbing/cleaning surfaces where pathogens might live - in their continuing efforts to make the Club a healthy and safe refuge for Members and staff.

In addition to our day-to-day housekeeping measures that sanitize door handles, elevator buttons, table tops and other common elements, ECOLAB – an internationally renowned hygiene company – is now providing professional sanitizing of the entire clubhouse, once every two weeks, at night. This program is another step that we are taking to ensure that the ACC remains a safe haven for Members, their children and our staff.
