

Coronavirus Precautionary Measures Update

Guest and domestic caregiver restriction to continue until April 30

As part of our strategy to keep the ACC a safe haven for Members, their children and our staff, the ban on guests and domestic caregivers will continue until the end of the day on Thursday April 30. Watch the e-newsletter on April 23 or April 30 for the announcement about whether these restrictions will continue into May. We thank everyone for their understanding and cooperation during this time.

Social distancing protocols

The Club responded quickly to the government's guidelines on social distancing last week. Since then, we have had the time to review the measures that were rushed into place and to plan a more comprehensive approach to the Club's spa-type facilities. These have been reopened, with the following social distancing restrictions based on the dimensions of each and the government's guidelines for indoor and outdoor spaces.

- Saunas – 2 people at a time
- Steam Rooms – 2 people at a time
- Outdoor Jacuzzi – 3 people at a time
- Indoor Jacuzzi Cold Plunge – 1 person at a time
- Indoor Jacuzzi Warm Plunge – 2 people at a time

Signs reminding Members of these capacities are prominently posted and we ask everyone's cooperation with these social distancing restrictions.

Government adds 7 days of self-monitoring to 14 days of home quarantine or home isolation

Members are reminded that if they or their family members have ended their 14 days of home quarantine or home isolation they must now add 7 days of self-monitoring to this. During the seven days of self-monitoring, Members are reminded to avoid visiting crowded locations and to wear a mask outside the home at all times.

14 days of self-health management required after Tomb Sweeping long weekend

The CDC is requiring that people who visited crowded places or activities during the holiday should wear a mask, avoid unnecessary outings, strictly practice social distancing, avoid going to work if they develop any symptoms and seek medical attention or call the 1922 hotline.

New sanitizing program in place

In addition to our day-to-day housekeeping measures that sanitize door handles, elevator buttons, table tops and other common elements, ECOLAB – an internationally renowned hygiene company – is now providing professional sanitizing of the entire clubhouse, once every two weeks, at night. This program is another step that we are taking to ensure that the ACC remains a safe haven for Members, their children and our staff.
