

COVID-19 Guest Rules Clarified – June 11, 2020

As you know, the Club has been fine-tuning its guest rules in recent weeks as we strive to balance the following goals:

- To provide adequate social distancing space for the health and safety of our Members, their children and our staff.
- To provide a record of everyone who enters the Club for COVID-19 tracking and tracing purposes.
- To provide a high quality Member experience in a summer that is already proving to be exceptionally busy and promises to get busier still.

To achieve these objectives – and to ensure that Members' safe enjoyment of their Club remains our top priority – the following guest rules have been approved and will remain in effect until further notice:

1. Each Member family may bring a maximum of four guests at one time.
2. Domestic Caregivers are counted as guests.
3. Domestic Caregivers who look after seniors or people with disabilities do not count as guests and may visit the Club at any time with the Members they are caring for.
4. No guests or Domestic Caregivers are allowed on Saturdays, Sundays or public holidays.

5. Government designated "make up working days" (補課/補班日) will not apply at the Club.
6. "Summer Slide & Splash" evenings are reserved for Members Only – to ensure a safe, high quality experience for our Members' children
7. Guests must complete the Guest Travel & Health Self-Declaration form and show photo identification before entering.

We thank you for your cooperation with these rules that have been put in place for the benefit of all Members and which will be reviewed as circumstances change.
